Founded : October 1921
Incorporated : June 1950
Paid-in Capital : 11,373 million yen (as of March 31, 2021)
Number of Issued Shares : 19.5 million (as of March 31, 2021)
Main Business Activities :

- Manufacture and sales of sewing machines (household machines, overlock machines) and related products
- Manufacture and sales of industrial equipment: servo presses, industrial robots, Cartesian robots, etc.
- Sales of dressmaking products and educational materials for schools

Head Office : 1463 Hazama-machi, Hachioji-shi, Tokyo, Japan 193-0941
Tel: (+81)42-661-3071
Subsidiaries : 24 (4 Domestic, 20 Overseas)
No. of Employees : 3,445 (as of March 31, 2021)
Main Financing Banks : Resona Bank, Ltd.
Sumitomo Mitsui Trust Bank, Ltd.

Historical Milestones

1921 (Oct.)	Founding of Pine Sewing Machine Factory
1935 (Nov.)	Company renamed Teikoku Sewing Machine Co., Ltd.
1949 (Jan.)	Company renamed Janome Sewing Machine Co., Ltd.
1963 (Nov.)	Janome lists in the first section of the Tokyo Stock Exchange
1979 (Apr.)	Released the Memory 7-5001, Japan's first computerized sewing machine
1984 (Apr.)	Released the JP-20 Electro Press (Servo Press)
1993 (Apr.)	Released the JR500 Desktop Robot
2009 (Jul.)	Head office relocates from Kyobashi, Chuo-ku, Tokyo to Hachioji-shi, Tokyo
2013 (Apr.)	Janome Thailand's cumulative output exceeds 10 million sewing machines
2015 (Aug.)	Janome Taiwan's cumulative output exceeds 30 million sewing machines
2019 (Dec.)	Janome Group's cumulative output exceeds 70 million sewing machines
2021 (Oct.)	Company renamed JANOME Corporation; 100th Anniversary

Increasing sales by expanding our global operations

Global sales network more than 100 countries strong

We continually strive to meet the evolving needs of our customers around the world, developing new machines and a wealth of sewing machine-related software and accessories. We support our overseas sales distributors, and work actively to develop new customers. Janome is the world's leading supplier of household sewing machines, with sales in North America, Europe and elsewhere, over 100 countries in total.

Horizon Quilt Maker Memory Craft 15000

Designed with a long body for a wide range of sewing functions including quilting and embroidery, the MC15000 also interfaces with your PC or iPad via a wireless LAN for even easier operation.

Continental M7 Professional

Advanced design and functionality combine with the largest work area in the industry for a true heavy duty quilting machine. Usable with a smartphone or tablet, quilters can access examples and helpful hints via Janome's dedicated guidance app to create the best design for their quilting project.

Air Thread 2000D Professional

Featuring an air-powered easy threading device, this comprehensive overlock machine works comfortably every step of the way, from material preparation to the final touches.

North America

Janome offers a wide range of sewing machines, from basic models to top-of-the-line models that can embroider and quilt to meet the 2.3 million units per year demand in North America, the world's largest sewing machine market. We utilize two sales channels: specialty retailers who offer comprehensive service and helpful advice to mid-range and top-of-the-line model customers, and retail chains for our basic models. We market our products effectively in North America where we are a major player in the sewing machine market.

Europe

Our products are sold in the European market through our sales subsidiaries in the UK, Germany, the Netherlands, Switzerland, and through our distributors in several other countries. We also serve as an OEM supplier for a number of European sewing machine brands as well as sell our own machines through major retail chains, enjoying wide acceptance throughout Europe.

Other Markets

We also have sales subsidiaries in Australia and New Zealand and excellent distributors in Asia, the CIS, the Middle East and Latin America who promote our broad product lineup to various local markets.

Domestic Sales and Service Network

Company Stores & Franchises

●Keeping in close touch with our customers: Janome company stores

Janome serves more than 10 million sewing machine customers in Japan through our company stores. Personalized service is essential, and we regularly offer “Janome Sewing Classes and Workshops” at our stores.
We gain new ideas for a variety of lifestyle-enhancing products by listening to our customers and learning about their needs.

●Franchises

Complementing our company stores, more than 70 franchise stores offer the same products and after-sales services to our customers throughout Japan.

Tokyo Store

Tokyo Store Interior

Kofu Store

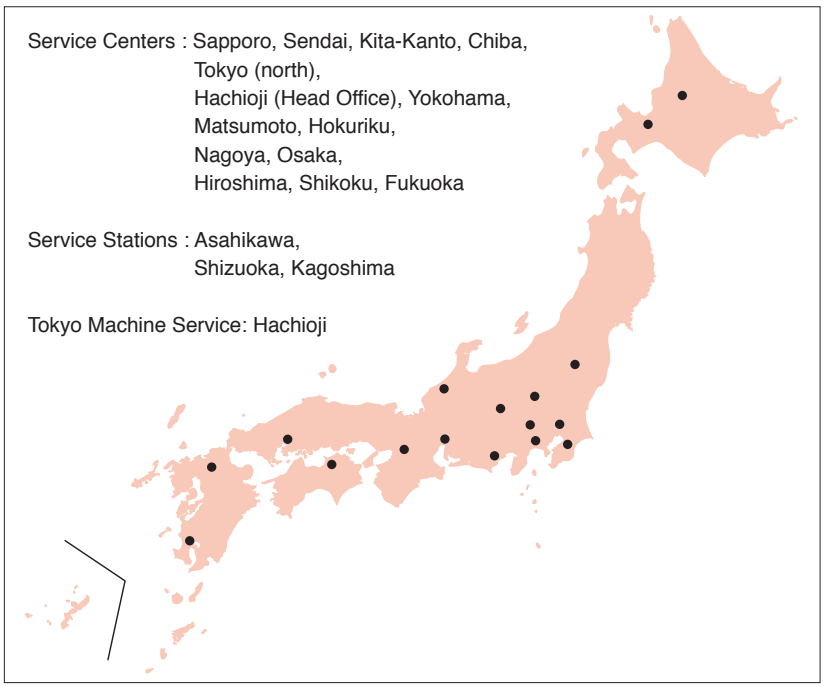

Comprehensive After-Sales Service Network

●After-Sales Network

Our dedicated service subsidiary Janome Service Corporation, maintains customers confidence with fast and attentive service.

18 service centers and service stations around the country stand ready to make repairs and perform regular maintenance on our products.

Community Spaces to Support Handicraft Enthusiasts

In addition to “Janome Sewing Classes and Workshops” held at our company stores nationwide, we also operate these specialty stores where customers can experience the fun of handicraft.

●Bobinage (Kichijoji, Tokyo)

Emulating the concept, “enjoy handicraft enjoy sewing machines”, our handicraft specialty store Bobinage offers a variety of handicraft projects for customers.
In the special “Create Room” our top model sewing machines are available for use on an hourly rental basis, giving customers who don’t have a sewing machine at home an easy way to experience the pleasure of sewing handicrafts.
At Bobinage, we have a wide range of classes and workshops taught by respected sewing instructors. Handcrafted items and original products are also on display, further contributing to a creative atmosphere where customers can enjoy making things by hand.

●Janome Sewing Park Niigata

(3F Niigata east Aeon Department Store, Niigata-shi, Niigata)

Created as a gathering place for the local community, the Janome Sewing Park offers customers a chance to try out our sewing machines for a “hands-on” experience.
The Janome Sewing Park also includes a service center where customers can freely seek advice about using and maintaining their Janome sewing machine, as well as enjoy a variety of other services designed to help customers with their projects.

https://www5.janome.co.jp/sewing-park-niigata/

●Takatsuki Sewing Room

(2F Janome Takatsuki Store, Takatsuki-shi, Osaka)

In addition to offering workshops and dressmaking classes taught by well-known instructors, we also offer the Takatsuki Sewing Room as a rental classroom space equipped with our top model sewing machines.

A Multifaceted Company

Sales through wholesale dealers and to schools

Wholesale dealer sales

Janome meets a wide range of customer needs through wholesale sewing machine dealers and handicraft shops who both sell and service our sewing machines. In addition, we established Janome Family Clubs in seven localized regions throughout Japan which support more than 100 affiliated stores, and through whom we took root in many local communities to establish a comprehensive service network.

A Multifaceted Company

Industrial Equipment

Contributing to industrial development with advanced technology

Building upon the cutting-edge technology we created producing sewing machines, Janome Group manufactures and sells industrial equipment and parts. Primarily these include desktop robots, SCARA robots (horizontal articulated robots), Cartesian robots and our servo press series which we proactively sell and service to customers both in Japan and abroad in the automotive, IT, electronics and other manufacturing industries. Our sales and service network includes three domestic sales offices (in Nagoya, Osaka and Fukuoka) and six overseas sales offices (in the US, Mexico, Germany, China and Taiwan). Furthermore, at our three facilities (in Yamaguchi, Hyogo and Thailand), the Janome Group also manufactures and sells die cast and plaster cast parts as machine parts for a variety of manufacturing industries, such as precision equipment and collaborative robot manufacturing.

1. Industrial Robots (Desktop, SCARA and Cartesian Robots)

Respected industry-wide for their high precision, user-friendliness and broad range of movement, our versatile industrial robots handle multiple applications, including dispensing, screw tightening, soldering, PC board depaneling and more. Our JR Series desktop robots boast the highest levels of precision in the industry. The JC Series Cartesian robot is ideal for inclusion in assembly facilities and the JS Series SCARA robots help customers automate their production site. Through this rich lineup, Janome robots continue to expand their range of usefulness.

2. Servo Press

Since its release as the industry's first CNC servo press for assembly, our highly regarded servo press maintains a considerable market share. In addition to high precision control of load, position and speed, our servo presses also offer a variety of pressing and quality control functions. Starting with our flagship model JP Series, which offers multiple installation methods, and the JP-S Series, which designed especially for installation in the compact spaces of customer production facilities, we assembled a strong lineup.

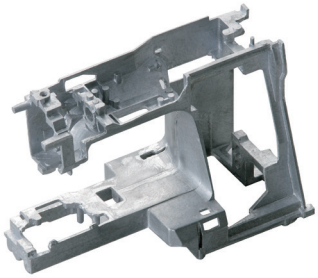

Inline Type Servo Press

Unit Type Servo Press

3. Die Casting, Plaster Casting

At Janome Diecasting, Co., Ltd. and Janome Diecasting (Thailand) Co., Ltd,, we systematized the entire process for our aluminum and magnesium die cast products from casting to machining to surface finishing, offering dependable quality for every customer requirement, using advanced die casting machines ranging up to 1200 tons. A pioneer in using plaster casting, our comprehensive manufacturing facilities are equipped for design all the way through to production, offering the same level of precision manufacturing and short lead times as with metal mold die casting.

Die Casting

Developing cutting-edge technology and production systems

Research & Development, Domestic and Overseas Production

●Research & Development Center

In 1964, Janome established the world's first general research center for sewing machines. We consistently develop cutting-edge products and are currently leading the way globally with the first embroidery machines in the industry with built-in Wi-Fi technology. As a leader in the household sewing machine market, we carefully research the consumer environment, offering both the "hard" machine accessories and the "soft", software which enhance the sewing experience, while at the same time aiming to develop environmentally-friendly products.
In the industrial equipment field, our desktop, Cartesian and SCARA robots and servo presses are well accepted in the global market. Furthermore, while researching new products we break new ground in the areas of intellectual properties with patents and registered designs, and environmentally friendly products.

ISO9001/ISO14001 Certified

●Domestic Production

Tokyo Factory

Producing top-of-the-line computerized embroidery sewing machines and precision industrial equipment, our Tokyo Factory plays a leading role in Janome's operations.
Here we manufacture our acclaimed servo presses, as well as our popular desktop and SCARA robots, utilized by customers around the world in a variety of applications from assembly to dispensing.
We also employ our Tokyo Factory's high precision tooling capabilities to create precision parts, tools and fixtures for use in all our factories.

ISO9001/ISO14001 Certified

Building No.2, Tokyo Factory

Janome Diecasting Co., Ltd.

Using superior technology cultivated through years of producing sewing machines, Janome Diecasting manufactures aluminum and magnesium die cast parts for a wide-range of industries including automobiles, industrial equipment, optical and medical equipment at our state-of the-art facilities using advanced technology. Also, our own innovative prototype plaster casting method yields high precision die cast part prototypes with a short lead time, earning high marks from customers from a wide variety of fields.

ISO9001/Eco Action 21 Certified

Janome Diecasting Co., Ltd.

●Overseas production: The gateway to global markets

As a high-tech production facility, Janome Taiwan (Establish. 1969) plays a key role in supporting our overseas business strategy. Janome(Thailand)established in 1988 has raised its production capacity to 130,000 machines per month and together with a die casting factory we added in 2002 as Janome Diecasting(Thailand), continues to show steady growth as our second Southeast Asian production facility.

Global Network

In addition to our central production facility at our Tokyo headquarters, we established production facilities in Taiwan and Thailand and have overseas sales subsidiaries in 17 different locations to provide top quality products at competitive prices to our customers all over the world. These companies work hand-in-hand with our Tokyo headquarters to offer products that meet customer needs.
